RE: *Albert Ebanks*

DATE: *January 23, 2018*

R. Tabares, LCSW, CCM

.....

By way of this letter, I wish to inform JJCCF of the fact that Albert Ebanks, a patient from the Cayman Islands with AML whom JJCCF assisted while he was in treatment at Broward General Hospital last year, has been transferred to our medical center due to his need for a bone marrow transplant. Albert is currently hospitalized in our Pediatric Bone Marrow Transplant unit.

Albert's mother, Starleth Ebanks, has needed to return home to Georgetown, Cayman Islands, to her job. Before doing so, however, she has given Power of Attorney to her husband, Cesar Fajardo (Albert's step-father) to act on her behalf while she is away. I have forwarded the notarized Power of Attorney Form, along with this letter for your review.

Mr. Fajardo has quit his job in Georgetown in order to travel to Miami and to be by Albert's side during his time here. Mom plans to travel from time to time, however, she needs to work in order for Albert's government health insurance to continue. As you can imagine, this situation places a tremendous financial hardship on the family and, it is for this very reason, I appeal to the Advocacy Program as a way of possibly securing added financial assistance to Albert's family. Please do not hesitate to contact me at 305-585-5685 for any further assistance I can offer. Thank you!
