

I would like to recommend **Abigail Mayorga's family** for your advocacy Program. Abigail is a 4 year old with known diagnosis of Pre-B Acute Lymphoblastic Leukemia (ALL).

Abigail is currently in maintenance therapy and doing very well medically. Unfortunately due to the additional stress Abigail's illness has placed on the family Abigail's parents have separated. Abigail's Mom was able to temporarily move in with her mother however; they cannot stay there permanently since the home is much too small. Abigail's Mom has been able to secure a good job to provide for herself and her children however, she can use some assistance with the initial costs that will be involved to move into there own apartment. Any assistance you can provide for this family to help with the enormous financial burden this Mom now is facing would be greatly appreciated.

Please do not hesitate to contact me if you should need any further information.

Yours truly,

Michelle O'Boyle, RN, CPON
