Attention: Mr. James DeAnda

Dear Mr. DeAnda,

I am writing on behalf of the patient, Daiana Alvarez and her family. Daiana has been a patient of ours since December 2013, as she was diagnosed with Acute Lymphocytic Leukemia. Daiana has received chemotherapy and has had several follow-up clinic visits as her treatment.

Today, Daiana's mother informed me of her husband's (Daiana's biological father) current health condition. Mother stated that just 2 weeks ago, Mr. Alvarez was diagnosed with chronic leukemia. As a result, mother stated that Mr. Alvarez is unable to work as much as before, which in turn, she stated, poses financial stressors on her and her family. Not to mention, Mr. Alvarez' diagnosis also poses additional emotional worry on the entire family.

Daiana's mother approached me asking if there were any foundations that could possibly assist them with finances, since their current financial situation has changed. Because the Jessica June Children's Cancer Foundation helped this family out in the past, we were wondering if possibly the foundation could assist this family once again with the basics like food and clothing to help them get through this time.

Thank you for your time in considering this case.
