MIAMI CHILDREN'S HEALTH SYSTEM 

Patient Family Services

September 15, 2017

Dear Jessica June Children's Cancer Foundation,

This letter is on behalf of patient Kevin Diaz and his family. Kevin is a 17 Y/O boy, who received Acute Myelogenous Leukemia diagnosis. Kevin and his parents are originally from Venezuela, and his parents report a limited support system, as they do not have an extended family in Miami. Kevin has been receiving chemotherapy since March 2017, and is currently hospitalized after the Bone Marrow Transplant. The family reported that is under financial distress, and is seeking assistance to cover basic needs such as food and transportation expenses. Thank you so much in advance for all of the support and assistance that JJCCF provides through the Advocacy Program.

Kindly,

Nancy Mendoza, MSW
Pediatric Social Worker
