Dear Jessica June Children's Cancer Foundation

Arya is a 9-year-old girl, who was diagnosed with acute myeloid leukemia in October 2021. Since her diagnosis, she has undergone countless rounds of chemotherapy, faced two relapses and endured two bone marrow transplants. Unfortunately, the leukemia has persisted and Arya is now receiving palliative treatments to bring her as much quality of life as possible.

Two years of fighting has brought many financial struggles with it. Her parents are divorced, and each gave up working in order to be 100% dedicated to Arya's care. This resulted in one parent losing their home and both struggling to make ends meet. Arya lives over 2 hours away from our hospital and the family has difficulty finding the gas money to come for her treatments. They also need help with basic necessities like food and medications for Arya. The situation is truly heartbreaking and her parents are striving to do whatever they can for Arya to be comfortable and for them to be by her side.

Your kindness and generosity towards this family is immensely appreciated by us and by Arya's parents. We thank you kindly for your support.

Kind Regards,

Tiffany Gallart, MSW, RCSWI
