January 2, 2025

Dear Jessica June Children's Cancer Foundation,

This letter is on behalf of Giulianna Fasulo. Giulianna is a 12 year old Pediatric Oncology patient at Salah Foundation Children's Hospital at Broward Health Medical Center in Ft. Lauderdale, FL. Giulianna was first admitted to the hospital in March 2024 due to anemia and fevers. What started out as a few days of not feeling well turned out to be a parent's worst nightmare. Giulianna was diagnosed with high risk B-cell Lymphoblastic Leukemia.

Giulianna has been undergoing chemotherapy for nearly a year. The treatment schedule has been strenuous and causes her to be fatigued. Her mother is a single parent to Giulianna and her twin sister. She has had to manage their lives logistically and emotionally, in having a child who is ill and her twin who is not. Giulianna's mother had been working as a hair stylist and had to take a leave of absence due to her daughter's illness. She is now working as often as she can in order to keep up with bills. Giulianna's family would greatly benefit from any assistance possible during this time of need. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Melissa Stachowiak". The signature is written in a cursive, flowing style.

Melissa Stachowiak, LCSW  
Licensed Clinical Social Worker
