February 24, 2025

Dear Jessica June Children's Cancer Foundation,

This letter is on behalf of William Schneider. William is a five year old Pediatric Oncology patient at Salah Foundation Children's Hospital at Broward Health Medical Center in Ft. Lauderdale, FL. William was first admitted to the hospital in June 2024 due to upset stomach and was found with an abdominal mass. Unfortunately, he was diagnosed with Wilm's Tumor. William was treated with chemotherapy and radiation throughout 2024. He completed treatment in December 2024. He soon after began having similar symptoms again. In January 2025 he relapsed in his Wilm's Tumor and has now begun a new, more intensive treatment plan.

William's family resided in Ft. Lauderdale when initially diagnosed. Unfortunately, his father lost his business, and the family had to move to Okeechobee, FL. They have continued to travel nearly two hours for treatment at Broward Health, with the physicians who initially diagnosed and have treated him. His parents are working as much as they are able to but it is difficult with the strenuous treatment schedule. William's family would greatly benefit from any assistance possible during this time of need. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Melissa Stachowiak".

Melissa Stachowiak, LCSW  
Licensed Clinical Social Worker
