Dear Jessica June Children Cancer Foundation,

This letter is written on behalf of my client, Carmelle Blanc, to provide support for her and her nine-year-old son, Michael Blanc, who was diagnosed with leukemia in September, and their family is facing an urgent crisis.

The diagnosis and Michael's intensive treatment required Carmelle to completely shift her life. Michael needs round-the-clock support, meaning Carmelle has to remain constantly at his bedside during treatment and recovery. As a mother of two other children, this demanding schedule made it difficult for her to continue working, and she was forced to stop her employment in September.

This sudden loss of income has created overwhelming financial distress. Carmelle is now desperately struggling to pay basic, routine bills. Your support will do more than just help cover expenses, it will lift a tremendous financial weight, allowing Carmelle to focus her energy on Michael's diagnosis and the well-being of her children during this incredibly hard time.

This is a vital situation, and I am confident that Ms. Blanc's family would benefit immediately from your organization's generosity. Please don't hesitate to contact me if you require any further information or documentation.

Please feel free to contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads 'Linda Tiga Hernandez, LCSW'. The signature is written over a horizontal line.

Linda Tiga Hernandez, LCSW
