To Whom It May Concern:

This letter is on behalf of Leonidas Perez Lopez. Leonidas is a 14-year-old Pediatric Oncology Patient at Salah Foundation Children's Hospital at Broward Health Medical Center in Ft. Lauderdale, Florida. In September, his family's world shifted dramatically after he was diagnosed with T-Cell Acute Lymphoblastic Leukemia. His treatment has required extensive hospitalizations and intensive chemotherapy, at times requiring chemotherapy multiple times a week.

Leonidas' mother is a single mother and the sole provider for him, his two siblings, and his newborn nephew. Prior to his diagnosis, his mother worked tirelessly to provide for her family, but the demands of his rigorous treatment schedule has required her to significantly reduce her working hours. The emotional and financial strain of supporting a critically ill child while also caring for the entire household has been overwhelming. Assistance during this time would offer meaningful relief, helping the family maintain stability while ensuring Leonidas continues to receive the care, presence, and support essential for healing. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Victoria Arcay".
