

Where Your Child Matters Most™

September 16, 2026

To Whom It May Concern:

I am writing on behalf of the family of Eli Henderson, a 13-year-old child who is currently receiving care for osteosarcoma, a serious form of bone cancer requiring ongoing medical evaluation and treatment. He is currently receiving care at Nicklaus Children's Hospital Fort Lauderdale Pediatric Hematology/Oncology clinic.

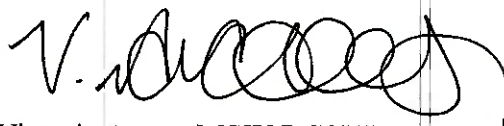

Eli's diagnosis has placed a significant emotional and financial strain on the family. His family must manage the demands associated with Eli's cancer treatment and medical appointments while also maintaining the needs of the household. His mother, Brittiny, is currently pregnant, and the family also includes the patient's 8-year-old sibling, Ezekial. In addition, the family has previously experienced the devastating loss of another child to Sudden Infant Death Syndrome (SIDS), further contributing to the emotional challenges they have faced as a family.

Due to the Eli's cancer diagnosis and the associated treatment-related responsibilities, his family is experiencing financial hardship and would greatly benefit from financial assistance. Any support available would greatly help alleviate some of the financial and emotional burdens associated with caring for a child with a life-threatening diagnosis and allow his family to focus their resources on the Eli's ongoing care and the well-being of the family as a whole.

I respectfully ask that you consider this family for financial assistance. Any support provided would be meaningful to Eli's family during this particularly challenging period.

Thank you for your consideration and for supporting families of children undergoing cancer treatment.

Sincerely,

MSW RCSWI
