

December 7, 2021

Dear Jessica June Children's Cancer Foundation
Attention: Sandra Muvdi

My name is Ida Rodriguez, and I am the clinical social worker at the University of Miami Sylvester Comprehensive Cancer Center alex's place, pediatric hematology oncology.

I am writing regarding Meredith Garciga, a 5-year-old little girl living with neuroblastoma since July 2021. Her mother, Marlise, was forced to leave her job to care for Meredith full time, as Meredith's medical needs include frequent medical follow-up visits to alex's place outpatient center and frequent hospitalizations. Mother reported limited financial support and asked about any assistance during this challenging time for her Meredith.

Any assistance would be very helpful to this family if possible.

Warmly,

Ida Rodriguez, LCSW
Clinical Social Worker
