November 5, 2021

To Whom It May Concern:

Avinash "Avi" Ghirow is a patient at Salah Foundation Children's Hospital Pediatric Hematology/Oncology Clinic at Broward Health Medical Center. Avinash was admitted to the pediatric hematology/oncology unit on November 10th, 2020 and was diagnosed with Acute Lymphoblastic Leukemia. Avinash is cared for primarily by his grandmother. She attends all visits for treatment and procedures, as his father works six days per week. Avi's grandmother was working but has been unable to since his diagnosis. The strenuous treatment schedule for this diagnosis has caused a hardship for the family. The first year has included the most intensive treatment involving several times weekly visits to the outpatient pediatric hematology/oncology clinic. This family would benefit greatly from any financial support available. Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink that reads "Melissa Stachowiak".
